Right: Shown with Iza Alpine interior, Oak cabinetry and standard jackknife sofa.

Let the Hurricane Class A motorhome change the way you travel for good. It offers the perfect blend of world-class comfort and contemporary style. With a choice of innovative floorplans, you'll find a model to meet your needs, tastes and lifestyle. Once you experience the Hurricane, nothing else quite measures up. In comfort. In quality. And in value.

The Hurricane is designed for those who prefer the amenities of a Class A motorhome at an

economical price. With a variety of single, double and triple slide-out models available, you can choose the size and floorplan that is right for you. Plus, all Hurricane motorhomes are built to meet high quality standards—from the inside out.

Above: Shown with Estate Indigo interior and Maple cabinetry.

Inset image: The slide-out pantry offers plenty of handy storage. When closed, it holds all items securely in place—even when on the road.

INTERIOR DECOR

Change The Way You Travel!

The spacious kitchen is fully equipped with name brand appliances and convenience features to meet your food planning and preparation needs. You can enjoy any kind of meal—from a quick snack or elegant meal—at the cozy dinette. When not in use, the dinette easily converts into a bed when extra sleeping accommodations are required.

There is ample storage space throughout the motorhome for your personal belongings. An elegant curio cabinet, available on models 34B, 34N and 34S, offers additional countertop space and storage in the cabinets below.

Middle right: Bedroom vanity lighted mirror and upholstered stool are available on models 32R and 34N. Shown with Estate Indigo interior and Oak cabinetry.

Lower right: Bedroom in Model 34S shown with Pebble Gray interior and Cherry cabinetry features a full-size sofa and oversize wardrobe with drawers.

Indulge Yourself In Relaxing Comfort

You can indulge yourself in gentle comfort after a day full of activities in the cozy bedroom. It features a queen-size bed with inner spring mattress that has a memory foam top for added sleeping comfort. The color coordinated bedspread, pillow shams and headboard add a touch of style and elegance.

While relaxing in bed, you can enjoy watching television or flip on the overhead lights to read your favorite book or magazine. The handy nightstands provide additional storage for small items. Optional

day/night shades keep the room dark when you want to sleep and enhance your privacy. Models 30Q, 31D and 33H are available with optional twin beds.

Model 34B is new for 2007 and specially designed for families with children. This unique triple slide-out floorplan features a hall slide with bunk beds and full 30" master bedroom slide. As a result, there is a greater distance between the master bedroom and children's sleeping area for added privacy. A pocket door can be used to close off the master bedroom entirely.

The bunk beds are designed for both children and adults. They are a full 80" in length to comfortably accommodate tall children and adults. Unlike similar competitor's models, these beds are built at a lower height so a child can easily access either bed. Plus, each bed has its own window.

There is a 15" LCD television built in to the wall opposite the bunk beds. This means you can watch your favorite television show while the kids enjoy their favorite movie or play a video game on their own television.

Hurricane motorhomes are available in models that sleep from four to eight people—with many unique features as well. For example, Model 34S is a triple slide-out floorplan with dual zone living. The living area in the bedroom features a comfortable fabric sofa with large window, and full 23" LCD television so you can relax in privacy. A roomy changing area is conveniently located right outside the bathroom.

Model 32E is a small triple slide floorplan packed with great amenities. It features a full hide-a-bed sofa, ergonomically designed L-shaped kitchen, side aisle hallway, and full bath with two entry doors.

THE FOUR WINDS INTERNATIONAL QUALITY DIFFERENCE

What sets Four Winds International apart from other manufacturers? It's a better level of quality built in each motorhome from the inside out. It's exceptional value that is integrated into each design. It's a dedication to innovation that allows us to continually improve our motorhomes. Our ultimate goal is to build the right combination of quality, functionality and durability so you get many years of enjoyment from your new motorhome. It's a commitment we take seriously, and one on which you can depend.

THE DIFFERENCE IS CLEAR

At Four Winds International (FWI), we strive to go beyond your expectations with every motorhome we build. By doing so, you will be able to enjoy a better quality of life while on the road.

All FWI motorhomes come with a full one-year, 15,000 mile bumper-to-bumper warranty, as well as a three-year, 45,000-mile limited

structural warranty. Our nationwide dealer network is fully equipped and trained to meet your service needs. The FWI support staff has many years of experience, and is available to provide assistance on all technical, service and warranty issues. For complete warranty details, contact your Four Winds International dealer.

FWI is proud to offer high-quality products and support services that result in customer satisfaction—one customer at a time. So whether you are a first-time recreational vehicle owner, or an experienced one, we're confident that you'll enjoy years of adventures in your new motorhome. This is the Four Winds International difference.

VEHICLE LOADING

Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

DRY WEIGHTS

Based on standard features; optional equipment not included. Net carrying capacity (NCC) determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight, (GVWR) and includes fluids, options, and cargo. Liquid capacities and weights are approximations only.

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada.

WARNING

This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.

IMPORTANT

Towing capacity may vary by chassis model, floorplan, options and loading of the vehicle. This may result in a towing capacity which is less than the maximum capacity of the hitch. Do not exceed the vehicle's Gross Combined Weight Rating (GCWR), or the hitch rating. A separate functioning brake system is required for any towed vehicle or trailer weighing more than 1,000 lbs. (450 KG) when fully loaded.

WHY THOR IS YOUR BEST RV VALUE

Thor Industries, Inc., listed on the New York Stock Exchange (THO), proudly traces its history back over 70 years to the pioneering days of the recreational vehicle industry with the founding of Airstream, the industry's oldest and most renowned brand. Our total commitment to quality and our philosophy of putting our customers first has led to our continuous growth.

Today, Thor is the largest builder of recreational vehicles. Thor's strong financial condition and years of solid growth are your assurance that we will be here to serve you for years to come. We think this extra peace of mind is important when you are making a significant investment. Because our customers are always #1 with us, we work harder than other manufacturers to satisfy you.
